## **Bacco's Wine & Cheese Shipping Policies**

Since cheese and wine are perishable in nature, our policy is to ensure next day delivery on shipments leaving our store, with same day courier delivery available as an option for addresses within the Greater Boston Area.

To ensure product viability, it is Bacco's policy to not ship on days where the temperature exceeds 85 degrees or where the destination will be over 85 degrees upon delivery.

Below are our guidelines to ensure that you receive your package(s) in proper condition.

### **Overall Guidelines**

- **A contact phone number and email address is required** for all deliveries.
- **FedEx requires any package including alcohol to be signed for by an adult 21 years or older.**
- We can not guarantee the condition of a package that isn't received on its original delivery date.
- All delivered perishables should be immediately transferred to a fridge upon arrival to prevent spoilage.
- No perishable or alcohol shipments on days above 85 degrees.
- No perishable or alcohol shipments to territories experiencing weather over 85 degrees.
- All perishable or alcohol shipments must be shipped the same day or overnight delivery.
- Upon request, perishable and alcohol can be shipped multi day though Bacco's Wine & Cheese will no longer be liable for the condition of the product upon arrival.
- Bacco's Wine & Cheese is not liable for the condition of packages that are not accepted on the original delivery date.
- If any additional packages must be shipped because the package was not received on the original delivery date, Bacco's Wine & Cheese is not liable for the cost of any additional shipping or product.
- During the warmer seasons we require that all event bookings be confirmed 15 business days ahead of the event.
- Bacco's Wine & Cheese reserves the right to cancel any event shipments if we are experiencing weather above 85 degrees or if the package is being shipped to a territory experiencing weather over 85 degrees.
